

Heavy Equipment Mechanic

LOCATION

- Temple Hills, MD

DESCRIPTION

The **Heavy Equipment Mechanic** is responsible for delivering expert-level diagnostics and repairs for heavy construction equipment and screening/crushing equipment while ensuring optimal performance and minimizing downtime.

RESPONSIBILITIES

- Conduct comprehensive preventive maintenance on heavy equipment and screening/crushing equipment at all levels.
- Identify and diagnose equipment issues, determine warrantable repairs, and thoroughly document findings in repair orders.
- Inspect hydraulic systems, and other critical parts to ensure optimal performance and safety.
- Perform routine services, including oil changes, battery checks, and equipment lubrication, to maintain peak operational efficiency.
- Measure and confirm part dimensions and clearances to ensure compliance with factory specifications.
- Uphold safety standards and maintain a clean, organized work environment.

QUALIFICATIONS

- Minimum of five (5) years of hands-on experience as a heavy equipment mechanic.
- Prior experience with crushers, screening plants and conveyors is required.
- Expertise in diagnosing engines, transmissions, differentials, transfer cases, hydraulic systems, electrical components (including starting and charging systems), motors, pumps, tracks, tires, and other auxiliary drive components.
- A proven history of dedicated commitment to preventive maintenance practices.
- Strong computer skills, including proficiency with computerized diagnostic tools, detailed record-keeping, the ability to interpret schematics, and a thorough understanding of warranties.
- In-depth knowledge of safety, environmental, and compliance regulations.
- A valid driver's license required; current CDL license preferred

BENEFITS

- Top pay & stability
- Paid holidays (7)
- PTO plan (personal time off)
- Medical, dental, life & disability insurance
- 401(k) retirement plan
- Performance bonuses
- Educational assistance program
